## PROFILE

Motivated third-year Software Engineering student with strong programming and problem-solving skills. Passionate about developing innovative solutions and continuously expanding my knowledge in web and mobile app development. Dedicated to building high-quality, scalable applications that create meaningful impact.

## EDUCATION

**Software Engineering**                                                    2022 – present
*Adama Science and Technology University*                        Adama, Ethiopia

## SKILLS

.

**Programming Languages**: Java, Python, C++, JavaScript
**Frameworks/Libraries**: React, Node.js, Django, Servlet and Next Js
**Tools/Technologies**: Git,Postgres, MySQL, MongoDB
**Other**: REST APIs, Unit Testing
**Soft Skills:** communication, leadership and problem solving

## PROJECTS

**Quiz Builder App** 🔗
**Tools/Technologies**: Servlet Java, mysql db and javascript
**Contribution**: Designed and developed a full-stack web application for making and managing quiz with integrating authentication.

**Table Extractor** 🔗
**Tools/Technologies**: FastHtml python, Pico css and javascript
**Contribution**: Designed and developed a full-stack web application for extracting tables from a website by copy and pasting the link of the website on the input field then download the file as datasheet.

**Agar Multiplayer Online Game**
**Tools/Technologies**:express, html and socket io
**Contribution**: Designed and developed a game similar to the agar.io 🔗 . I integrated socket io for real time communication between players.

**Collaborative Whiteboard** 🔗
**Tools/Technologies**:express, Nextjs,Tailwind css and socket io
**Contribution**: Designed and developed a simple whiteboard implementation similar to the excalidraw. I integrated socket io for real time communication.
